Summary

Frontend engineer who ships production client sites from Figma to Nuxt, Vue, Next.js, and Astro with headless CMS, responsive delivery, and release discipline. Owns product UI end-to-end, including Kaeru App shell polish (bilingual EN/JA, accessibility) and concurrent multi-org frontend delivery.

Skills

Languages: TypeScript, JavaScript, HTML, CSS, SQL, Shell

Frontend: Nuxt, Next.js, Vue, React, Astro, Tailwind, Figma

CMS & delivery: microCMS, Zod, Vercel, GitHub Actions

Product & platform: Cloudflare (Workers, Pages, D1, R2), Node.js, Bun, Tauri

Work Experience

Jr. Frontend Developer | OSBR Sdn Bhd, Malaysia Apr 2025 - Present

- Shipped Figma-to-code client sites on Nuxt, Vue, and Astro (microCMS), including healthcare-recruitment landing pages verified across mobile, tablet, and desktop.
- Contributed to an ongoing Nuxt 4 migration across two related recruitment web properties; ported shared components for consistent UX.
- Recovered a production Vercel outage from a dependency mismatch; added Workers scaffold and GitHub Actions deploy to the team CLI.
- Built frontend surfaces for client AI chat workflows (Next.js) and designed/prototyped a travel-client conversational UI for a retrieval-backed chat experience.

Frontend Developer | Todak Digitech Sdn Bhd, Malaysia Jan 2024 - Apr 2025

- Led end-to-end responsive web delivery (UI, front-end, content strategy) with API integrations; tested across Laravel, React, and Flutter.

Projects

Kaeru App | Desktop AI workspace ↗ | Tauri, Rust, React, TypeScript 2026 - Present

- Shipping Kaeru App: Tauri desktop shell (real terminal, live preview, plain-language source control), bilingual EN/JA UI, and accessibility polish, with high-throughput multi-repo ownership across Kaeru, log.exe, and concurrent client frontend work.

log.exe | Agentic CMS / product UI ↗ | Next.js, Cloudflare Workers, D1, R2 2026 - Present

- Built the Next.js product UI for a personal Agentic CMS so humans and agents share one D1+R2 schema via web, REST, MCP, and CLI doors.

Canopy | Multi-agent orchestration viewer ↗ | TypeScript, Next.js, Tailwind, Bun 2026

- Built a Next.js + SSE viewer where AI agents debate in an isometric scene and a human approves; product UI over shared agent config.

Education

Bachelor of Accountancy (Honours), First Class | Universiti Teknologi MARA 2018 - 2021

Certified Associate in Front-End Development ↗ | TalentLabs Academy Aug 2023

Foundation Certificate in Software Engineering ↗ | TalentLabs Academy May 2022

Certifications

- AWS Certified Solutions Architect - Associate ↗ | Amazon Web Services
